

ASD-800

AUTOMATIC (LEAFY)
VEGETABLE CENTRIFUGE

General

Since the start up of the vegetable processing industry in 1929 Eillert has been successful in this line of business. Many of our customers started as greengrocers and have developed into leading food processors, supplying to food retail, fast food and the hotel and catering industry.

Quality and service

The choice of high quality components of renowned global brands guarantees a good availability and more reliability. Regular maintenance of the machines maximises the uptime. Also for on site maintenance, you can rely on Eillert's experienced and professional service department. After all, for service and maintenance, the experienced manufacturer of your machines is the one to deal with.

ASD-800

The ASD-800 is an automatic (leafy) vegetable centrifuge with an integrated infeed and outfeed belt. Due to its modular construction it can be placed in various positions within a production line. The spin-drying process (filling grade, time and speed curve) is fully PLC programmed. The possibility to choose a program per product makes the production process easy to reproduce and to optimize per product. An air knife cleans the drum after each batch. The centrifuge is equipped with a self cleaning system (cleaning in place) during product change or at the end of production.

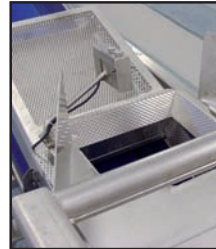

Due to the open hygienic construction and accessibility of all components, the machine can be easily and quickly cleaned and maintained.

ASD-800

AUTOMATIC (LEAFY)
VEGETABLE CENTRIFUGE

- Capacity up to 1.600 kg. / hour, depending on the product, time and desired dryness
- Compact, low, hygienic shape
- Optimal product treatment and water discharge through well dosed, thin product layer in the centrifuge drum
- Good separation between wet and dry section

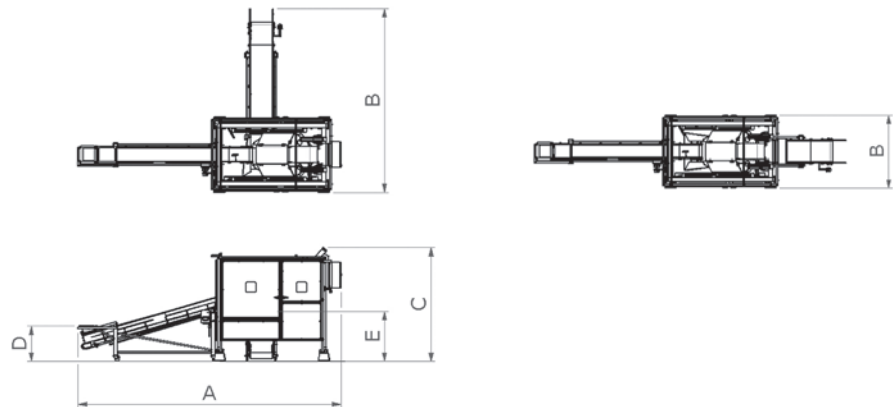

Technical specification:

Connections :	400 Volts, 50 Hz, 3 Phase+PE+PN, 8,7 kW
Plug :	32 A CEE, 5 pole
Options :	Air cleaning filter Compressed air tank Bunker under water outlet for stockpiling while filling the centrifuge

Other machines

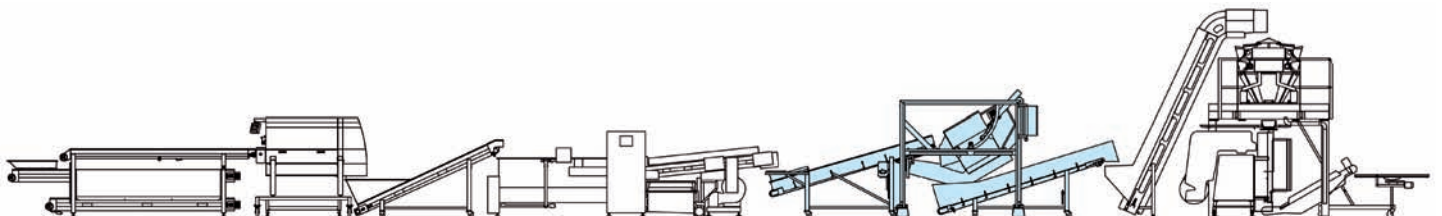

in the Eillert vegetable processing program are:

- Preparation tables
- slicing machines
- washing machines
- basket mills
- manual centrifuges
- weighing/packing machines
- abrasive/knife peeling machines

Maschine type	A in mm	B in mm	C in mm	D in mm	E in mm
ASD-800 (in line)	7515	1752	2648	817	1159
ASD-800 (outfeed left)*	6093	4276	2648	817	1159

* Measurement identical with outfeed right side
